

TRADESMAN & WORKSHOP SERIES

Air Command's 100% Italian made compressors gives you quality that lasts! With the advantage of heavy duty oil-lubricated pump and separate motor configurations, these compressors have a high load capacity but low current draw. Oversized, slow revving pumps with large after coolers, ergonomic handles and easy wheel design, these heavy duty yet portable compressors feature special design to be switched to run continuously allowing for running on poor power supplies and generators, or remain on normal stop/start function. Air Command's industrial rated tradesman and workshop series come out on top every time!

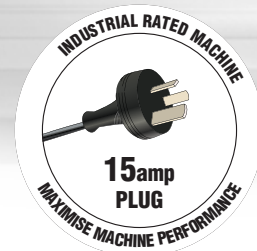

WORKSHOP 16DC

INDUSTRIAL SINGLE PHASE DUAL CONTROL COMPRESSOR

- Dual Control Function
 - Stop/Start function for normal workshop use
 - Constant run function for use with poor power supply (e.g. generator use)
- Oversized, slow revving full shell bearing pump with high airflow flywheel and built-in after cooler for cooler drier air supply and longer life
- Heavy duty Italian motor with thermal overload
- Convenient carry handle and pneumatic wheels for superior maneuverability around site
- Anti-vibration feet for improved stability
- 15A plug for ultimate performance
- Ideal for on-site, farms or in areas with poor power supplies
